Purpose

The purpose of a Code of Conduct and Client Service Standards is to provide a framework for decisions and actions in relation to our employees' conduct both in employment and as Tetra Tech International Development representatives in front of our clients. Employees

All Employees are responsible for:

- Undertaking their duties in a manner that is consistent with the provisions of the Code of Conduct and Client Service Standards

- Reporting any departure from the Code of Conduct and Client Service Standards by themselves or others.

Code of Conduct

Tetra Tech International Development is a complex organisation, which involves a diversity of relationships. These relationships may be defined by differences in power, status, cultural diversity, organisational structures, contracting relationships, differing country laws, labour laws, international relationships and or national governments. It is essential in such a community that all Employees recognise and respect not only their own rights and responsibilities but also the rights and responsibilities of other members of the community and those of Tetra Tech International Development.

Tetra Tech International Development also recognises that many of their professional employees are also bound by codes of conduct or ethics defined by learned or professional societies or groups. It is recognised that these codes are not always in harmony. It is an obligation of an Employee to weigh the importance of these codes in each particular set of circumstances and notify an appropriate officer of Tetra Tech International Development where such conflict may arise.

Personal and Professional Behaviour

You should not behave in a way which has the intent or effect of offending or embarrassing other Employees or the public in a manner contrary to legislative requirements.

When carrying out your duties, you will:

- Obey any lawful direction from a person who has the authority to give the direction. If you have a dispute about carrying out a direction you may appeal to your senior manager.
- Behave honestly and with integrity. You will avoid behaviour that could suggest that you are not following these principles. This will include a duty to report other Employees who are behaving dishonestly.

- Where any Company function or meeting is held that involves the availability of alcohol, steps should be taken to ensure that it is not abused. You should be aware that being work-related, behaviour in those situations can be subject to disciplinary procedures.

Conflict of Interest

Potential for conflict of interest arises when it is likely that you could be influenced, or it could be perceived that you are influenced by a personal interest when carrying out your duties. Conflicts of interest that lead to biased decision making may constitute corrupt conduct.

Some situations that may give rise to a conflict of interest include situations where you have:

You may often be the only person aware of potential for conflict. Therefore, it is your responsibility to avoid any financial or other interest that could compromise your ability to perform your duties impartially. It is also your responsibility to report any potential or actual conflicts of interest to your manager.

If you are uncertain whether a conflict exists, you should discuss that matter with your manager and attempt to resolve any conflicts that may exist.

You must not submit or accept any bribe, or other improper inducement. Any advances of this nature are to be reported to senior management. If you are dealing with, or having access to, sensitive information, you should be particularly alert to inappropriate attempts to influence you.

Outside employment/other external business activities

If you work full time for the company and you wish to engage in paid employment/other business activities (including participation in family company) outside your official duties, you are required to seek the approval of your manager and Human Resources. The approval should not be unreasonably withheld. However, if there is any real or potential conflict of interest the duties of your position with the company must come first.

If you work for the company on a part time or casual basis, you are required to advise your manager and Human Resources of any real or potential conflict of interest between your employment for the company and any other employment.

The company can request the details of any other employment in the event of allegations of conflict of interest.

- Engage in sexual relationships with members of crisis-affected populations given their increased vulnerability and since such relationships are based on inherently unequal power dynamics and undermine the credibility and integrity of aid work.

- Ensure images are honest representations of the context and the facts

Breaches of this child protection Code of Conduct and Client Service Standards may result in disciplinary and/or criminal action.

Former Employees should not use or take advantage of confidential information obtained in the course of their official duties that may lead to gain or profit, until it has become publicly available.

Client Service Standards

All Tetra Tech International Development staff and team members are committed to the following Client Service Standards:

- Implement activities professionally, with a focus on quality, developmental impact and long-term sustainability and with proper regard to cross-cutting development policies, such as gender and the environment, and the whole-of-government approach to development.
- Maintain productive relationships with their counterpart Government and activity stakeholders. This includes a genuine focus on transferring skills to counterparts and promoting counterparts' longer term 'ownership' throughout the delivery of the activity.
- Focus on achieving results and outcomes in a manner that is always accountable and demonstrates probity, procedural fairness, and value for money.
- Take responsibility for progress of activities, consulting actively with the client and their counterpart on important problems and issues.
- Use experience and judgement to identify substantive problems in advance and then approach the client (and where appropriate the counterpart) with well-considered, well costed, options and recommendations.
- Demonstrate value adding, innovation, analytical rigour and quality assurance in project or activity management. This includes ensuring quality, clarity and accuracy of reporting, invoicing, and financial management.
- Promote high standards of personal conduct/behaviour, teamwork, and respect at all times. Lapses in these areas undermine relationships with counterparts, undermine activity effectiveness and reflect poorly on the client.
- Never make decisions that are the proper preserve of foreign governments and/or the funding agency, which alter the substance of the activity or create 'surprises' for the client or the counterpart.

Breaches of the Code of Conduct and Client Service Standards

Employees should note that breaches of certain sections of this Code of Conduct and Client Service Standards may be punishable under laws and legislation.

Breaches of this Code of Conduct and Client Service Standards may lead to termination of this agreement or other action.

The Service Provider acknowledges that it has read and understood the above Code of Conduct and Client Service Standards.

The Service Provider will ensure that it and its Personnel (where applicable) comply with the Code of Conduct and Client Service Standards requirements, as applicable to them as employees of an independent contractor of Tetra Tech International Development Pty Ltd.

Part E: Financial Assessment Selection Criteria

1 Financial Proposal

Tenderers must submit a Financial Proposal as a part of their submission in the MS Excel spreadsheet provided. The Financial Proposal must be submitted in a separate document. The Financial Proposal is worth 20% of the total assessment score.

2 Approach to the Financial Proposal

A financial price assessment of those Proposals assessed as technically suitable will be undertaken by the TEC for Tetra Tech International Development. Tetra Tech International Development reserves the right to provide the financial component of any Proposal to TEC members for their examination in the context of resource adequacy evaluation against the selection criteria in the technical assessment process.

3 Limited Information Required for Price Assessment

The financial detail required for the Financial Proposal (i.e. price assessment) includes the Tenderer's personnel design and delivery costs, and fixed management fee as indicated in the MS Excel spreadsheet template provided. Quotations must be in whole Australia dollars (\$AUD).

An estimate of reimbursable costs should also be included as part of the Tenderer's Financial Proposal. These costs will be negotiated with the preferred Tenderer prior to contracting and are not included in the like-for-like financial comparison.

Tenderers should note that inaccurate or inconsistent calculations in the Financial Proposal may, in Tetra Tech International Development's sole discretion, be grounds for Tetra Tech International Development to deem that Proposal non-conforming and exclude it from further consideration under this RFT process.

4 Content of Financial Proposal

Within the Financial Proposal Tenderers must address the criteria as set out in the table below. These criteria will be used to make a like-for-like financial comparison.

Criteria
Schedule 1: Design cost Personnel costs for the design of the Activity, expressed as number of person days at a daily rate. The Tenderer must make an assessment of the number of person days required to design the Activity. Proposed remuneration rates for nominated personnel must be within the rates set out in DFAT's <u>Aid Adviser Remuneration Framework Australian Government Department of Foreign Affairs and Trade (dfat.gov.au)</u> up to and not exceeding Market Reference Points.
Schedule 2: Delivery cost Personnel costs for the delivery of the Activity, expressed as number of person days at a daily rate for each of the nominated personnel. The number of days used to calculate these costs will normally be greater than the actual days required to deliver the Activity. Both the Activity Leader/Designer and the Coordinator will need to work some additional days on preparation, administration and logistics, preparing the Completion Report and Financial Report, etc. Tenderers need to make their own assessment of how many person days will be required to undertake these tasks. Proposed remuneration rates for nominated personnel must be within the rates set out in DFAT's <u>Aid Adviser Remuneration Framework Australian Government Department of Foreign Affairs and Trade (dfat.gov.au)</u> up to and not exceeding Market Reference Points.
Schedule 3: Fixed Management Fee Total management fee to be charged by the Tenderer for the design and delivery of the Activity as described at Part B: Scope of Services. This must include any applicable insurance as outlined in the Draft

Contract at Part C. Tenderers must clearly detail any “other fees” to be charged to the Activity (e.g. financial costs, administration costs, special fees, staff on costs, etc). These “other fees” will be subject to approval during the contract negotiation process.

The Fixed Management Fee is exclusive of personal costs and any other costs directly associated with the design and delivery of the Activity.

5 Retention of Price Component of Proposals by Tetra Tech International Development

The financial components of all Proposals, including those not considered technically suitable, will be retained by Tetra Tech International Development.

6 Escalation

There is no provision of escalation.

7 Goods and Services Tax (GST)

Refer to the Draft Services Agreement at Part C.
